

TRADE TROUBLES.

Produce can be manufactured in Virginia for \$11 per ton, while in Pennsylvania it would cost \$15 to \$17. Protection is not needed there.

The miners of Pennsylvania and Maryland will hold a reunion at some convenient point on the 24th to the 26th (inclusive) of October next.

An article on the railroad system of the United States, full of all kinds of practical information, for thoughtful business men will be found in another column.

Alabama has nearly half, 5500 square miles in extent, nearly half the coal area of Great Britain. She can supply the Central and South American markets with more readily than England, which now sells to those countries annually fully \$3,742,192 worth.

The manufacture of needles and pins is one of the most flourishing industries in Germany. The eight manufacturers of needle-making in 1882, 600 tons of needles consumed, 1882, 600 tons of needles consumed, 1882, 600 tons of needles consumed.

Mr. Alexander Mitchell, of Wisconsin, who knows that State as well as any man in or out of it, says that "Cleveland was doing here, and entire confidence is felt that it will carry New York by a large majority. Illinois and Wisconsin are looked to with great confidence for majorities for Cleveland."

A correspondent of the *Chicago Tribune*, after a close examination of the tin mines in the Black Hills, expressed the belief that within five years to come the "tin" amount of tin annually imported into the United States will be replaced by a larger amount of tin mined and worked into tin from ore found in the Black Hills of Dakota.

Five years ago the Canadian adopted a protective tariff, promising the working classes that it was chiefly for their benefit. But so far they have failed to realize it. There has been no advance in wages, but much cutting down of wages and many strikes, and 100,000 mechanics and laborers have fled from the Dominion to the United States. They don't want that sort of protection.

The Greenville Union, referring to the Democratic convention of the Third (Rhode) District, says: "The planters of this Delta section have all of them, the least taste for politics, and are never aroused to a real interest therein without a fully adequate cause. Their response to the present demand for protection is proof of their estimate of it, and is absolutely decisive of the result." They will elect their man.

The Age of Steel says that the iron mine in Birmingham, Ala., no longer think a proposition to restrict production on carry. They show little interest in the new scheme of the Western Iron-Age Association. They accepted the first proposition by which it was proposed to restrict production, but they have not accepted the second, which is a more radical proposition.

A most interesting series of items for the protectionist, and for the laboring man to peruse and consider, is given by Mr. Atkinson, of Boston, as the working results in several cotton sections in North Carolina and New England:

Planting of five acres one year in 1,000 yards. Planting of five acres one year in 1,000 yards. Planting of five acres one year in 1,000 yards. Planting of five acres one year in 1,000 yards.

The Hon. A. J. McWhorter will be here on Saturday next and address the people of Memphis upon the subject of the Cotton Exposition at New Orleans and the part the people of Tennessee should take in making it a success.

The planters and mechanics of the Delta are in a state of great excitement. They are all ready to go to New Orleans, and they are all ready to go to New Orleans, and they are all ready to go to New Orleans.

Will Geo. as Executive. Fall River, September 23.—At a meeting of the creditors of the Fall River, the stock of the members of the Fall River, the stock of the members of the Fall River, the stock of the members of the Fall River.

Seasonal Developments in the Newcomb-Buchanan Whisky Failure. Louisville—All sorts of transactions of the firm, who State Filed to Minor Failures.

Canada to Escape Punishment. The Assets Very Large, but Unavailable—Minor Failures.

Washington, September 23.—The setting of the currency has directed the bank examiner for Ohio to investigate the condition of the Loan National Bank at West Liberty, and, if necessary, take charge.

New York, September 23.—Wm. Ferguson has assigned to John F. Adams, President of the New York Stock Exchange, to investigate the condition of the Loan National Bank at West Liberty, and, if necessary, take charge.

Small Failure at Baltimore. Baltimore, September 23.—George M. Manger, butler, made an assignment to the United States court at Baltimore, Md., for the purpose of obtaining a discharge from the debts of the firm of Manger & Co., which was organized in 1870, and had a capital of \$100,000.

Will Geo. as Executive. Fall River, September 23.—At a meeting of the creditors of the Fall River, the stock of the members of the Fall River, the stock of the members of the Fall River, the stock of the members of the Fall River.

WILD AND PANICKY.

Another Exciting Day on 'Change at Chicago, With Corn as the Principal Feature.

Prices Maintained Very Close to the Top Range, and Reaction.

That the Squeeze Will Continue at Least Until the Close of the Present Month—The Outlook.

Chicago, September 23.—Corn was wild and panicky again to-day, but the excitement did not reach the pitch shown in the previous days of trading. The bulls succeeded in maintaining prices very close to the top of the range. A drop of 6c in the price of cash corn during the middle of the session was followed by a recovery of 10c, and the market closed at a profit of 4c on the previous day's trading.
